A hut is made using poles,  
grass and mud.

A hut has one door and two windows.

Huts are very good to stay in during dry season because they are cool.

Huts are also good to stay in when it is raining. You do not hear noise like on iron sheets.

Huts are very easy to make.

Every village in Uganda  
has huts.

BUT our village, Nandahabi,  
has the most beautiful huts.
